

# **NET TOKEN**

## **WHITE PAPER**

# Introduction

In the rapidly developing world of cryptocurrencies, \$NET is becoming a new icon among meme tokens. Inspired by the power of connection and humor, \$NET is not just a token, it is a movement created by a community that unites cryptocurrency enthusiasts, internet culture and innovation. With \$NET, you acquire not just a token, but become part of a revolution that celebrates fun, randomness and the limitless potential of the Internet. Get ready for endless opportunities, huge rewards and a journey that will keep you connected to the future of the meme token world!

## About \$NET

\$NET is an ERC20 token woven from a web of creativity and community. In the center of \$NET is a Spider, a symbol of dexterity, intelligence and endless connection. As a spider weaves its web, so \$NET unites a huge network of crypto enthusiasts, connecting the world of memes and blockchain. Each thread of the \$NET web symbolizes a connection — mixing the fun of Internet culture with the powerful technology of decentralized finance.

The unique concept of the token is based on a "Web of Value", where each holder becomes part of an interconnected system that thrives on rewards created by the community. The spider weaves tirelessly, making \$NET a token that continues to build and strengthen its network with each new participant. Just as each thread enhances the spider domain, so each new holder enhances the potential of \$NET.

# How to Get Started

## Create a wallet

If you already have a compatible wallet, proceed to the second step. If not, we recommend Meta Mask. It is available as a browser extension for PC and an application for mobile devices. Just go to the Meta Mask download page.

## Connect your wallet and buy \$NET

To purchase a NET token, you need to connect your wallet, which involves approving the contract on your wallet.

## Challenges

With \$NET, every step forward is an adventure filled with exciting challenges. These challenges, like a spider's web, are carefully woven to test your dexterity and connection with the community. By participating in unique \$NET challenges, holders can unlock special rewards.

From exciting social media tasks to blockchain—related puzzles, \$NET challenges are a fun and profitable way to strengthen your connection with the community and increase your assets at the same time. Whether it's building a network of connections through inviting new participants or solving the puzzles of decentralized finance, each challenge weaves you deeper into the \$NET network.

# Tokenomics

**Presale** \_\_\_\_\_ **20%**

20% is for the early spiders, which joined our nets

**Staking** \_\_\_\_\_ **30%**

To give more tokens to glad investors and expand horizons of net

**Liquidity** \_\_\_\_\_ **10%**

liquidity pools for decentralized exchanges

**Community Rewards** \_\_\_\_\_ **5%**

For our lovely spiders

**Marketing** \_\_\_\_\_ **15%**

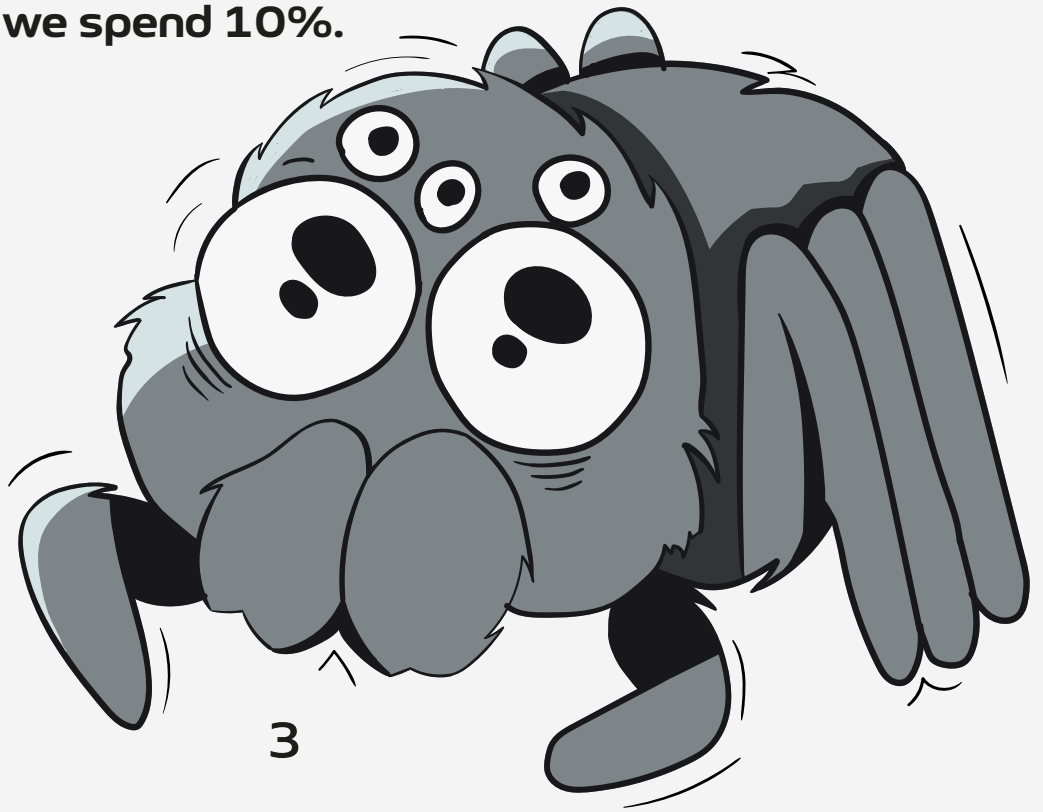

A large advertising budget is aimed at getting everyone who is interested in meme tokens entangled in our web

**Project Finance** \_\_\_\_\_ **10%**

To create a global network out of nothing, covering everything in the area, we need large resources and at least a lot of paws.

**Growing our net** \_\_\_\_\_ **10%**

We didn't just try so hard to spread our nets so that we could forget about them after a couple of weeks. In order to develop the project further, we spend 10%.

# Roadmap

The token distribution for NET TOKEN is designed to support growth, sustainability, and community rewards

## FIRST STEP

Think through an idea and conduct an analysis

Program \$NET and deploy a contract

Checking the contract to make sure it is secure

Social media and site launching.

## THIRD STEP

Presale launch

Creating marketing company

## SECOND STEP

Community events and contests

Getting \$NET on DEXs and CEXs so everyone can join our net

# FAQ

## What is \$NET

NET is a meme coin, as big as a "network" or "Internet". We bring people together all over the world, because with NET you become a spider in our huge network with the ability to weave your own strong networks.

---

## How can I participate in the \$NET token presale?

You can buy our token in our website

---

## When Can I Claim My Tokens?

You will claim your \$NET when presale has finished and the token is launched.

---

## When will the \$NET token be launched on exchanges?

Our token will be launched after presale end

---

## What wallet should I use to join the presale?

You can use any compatible wallet. We strongly suggest you MetaMask or Trust Wallet

---

## How do I contact the team?

You can contact the NET team through our Telegram channel to get support, ask questions and stay tuned
